[501c3 - Tax Deductible Receipts - Word Version](#)

These are examples of tax donation receipts that a 501c3 organization should provide to its donors. The receipt shows that a charitable contribution was made to your organization by the individual or business. You should include the dollar value of the item received and also state whether any good, service, item or gift was provided to the donor in exchange for donation. We have included two examples.

The first example assumes that no good or service was provided in exchange for the donation. The second example assume that the donor received a ticket to an event in exchange for the donation.
